

Defects

We will:

- Examine the issue of defective housing in the first twelve months, having regard to the recommendations of the Joint Oireachtas Committee on Housing report, 'Safe as Houses'.
- Bring forward law reform to improve the legal remedies for home owners dealing with defects.
- Ensure the remediation fund for Pyrite and Mica is fully drawn down.
- Assist owners of latent defect properties by identifying options for those impacted by defects to access low-cost, long-term finance.
